

tesa® Professional 60760

Product Information

Floor marking tape / hazard tape

tesa® 60760 is a hazard tape intended for temporary use. While the substrate material is soft PVC, the modified adhesive is made of natural rubber for good adhesive strength and reliable adhesion to the surface underneath. The abrasion-proof hazard tape, which can be torn by hand, is also suited to rough surfaces and is a valuable aid when marking hazards on building sites or in workshops.

Main Application

- Temporary marking applications
- Identify and mark mobile and stationary objects
- Adhesion on many different surfaces

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Additional Information

tesa® 60760 is also available in two highly visible colour combinations in accordance with safety regulations.
