3M™ Nomad™ Matting

Proven expertise over many years

Over 30 years ago, 3M scientists developed a product which would help effectively protect building entrances from dirt. The first Nomad™ matting product with its revolutionary vinyl “coiled loops” was developed to help remove moisture as well as dirt and debris. Incorporating carpet fiber technology, 3M expanded its entrance matting offering. Today, thanks to continuous innovation and proven expertise, 3M offers a complete line of entrance matting as well as Safety-Walk™ branded wet area and anti-fatigue work area matting.

3M™ Nomad™ Entrance Matting

It's more than a mat. It's a system.

The 3M™ Nomad™ Entrance Matting System is designed to stop dirt and moisture at the door, helping keep floors clean throughout your facility. Today's emphasis on green cleaning and the impact of the cleanliness of a building on health makes trapping dirt and moisture at the door critical. By using the 3M™ Nomad™ Entrance Matting System, the result is cleaner-looking floors that are easier to maintain, safer for building occupants, and less likely to be damaged by tracked-in dirt.

THE 3M™ NOMAD™ ENTRANCE MATTING SYSTEM CONSISTS OF 2 TYPES OF MATS:

3M™ Nomad™ Z-web Scraper Matting & Modular Matting

Collects more dirt through the foyer

Specific Mats for Specific Jobs

3M™ NOMAD™ SCRAPER MATTING – VINYL LOOP

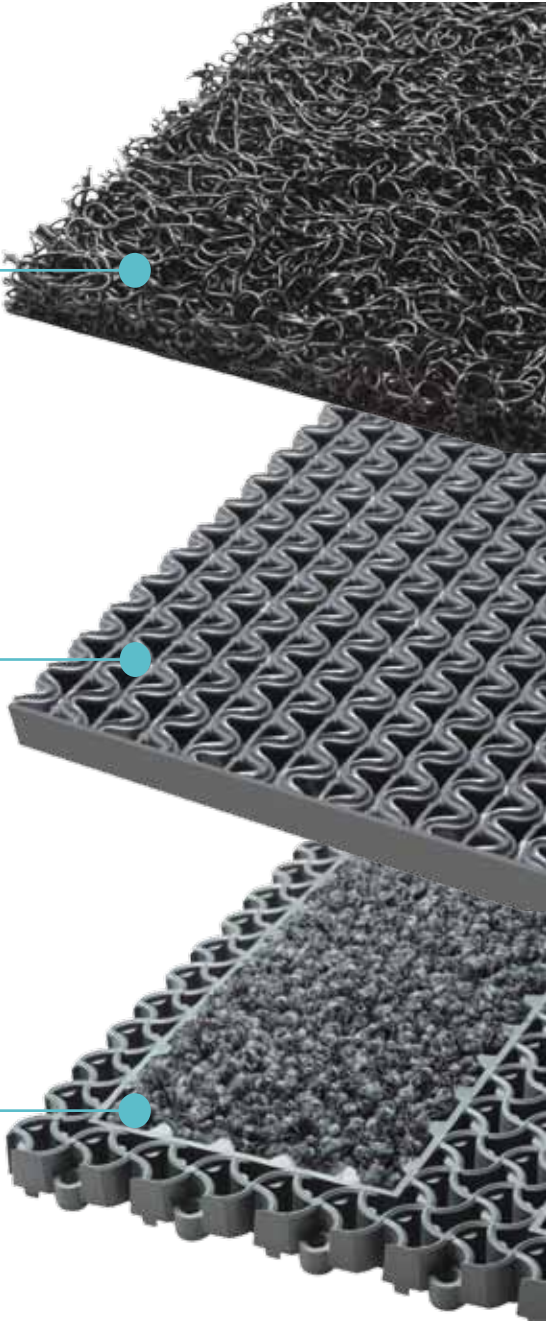

The first line of defense in the Nomad™ Entrance Matting System. Vinyl-loop scraper matting is designed to trap dirt and moisture before it gets in the door. Designed for outdoor entrances and recessed wells. The backed mats are suitable for indoor applications.

3M™ NOMAD™ SCRAPER MATTING – Z-WEB

Z-web scraper matting is designed to trap dirt and moisture before it gets in the door. Designed for outdoor entrances, recessed wells and foyers. The backed mats are suitable for interior spill areas.

3M™ NOMAD™ MODULAR MATTING

Vinyl tiles with carpet strips scrape dirt as well as remove and hold moisture. Tiles snap together and are designed for recessed well applications.
