## tesa® products according below list

To Whom It May Concern,

We would like to inform you about the changes for the below mentioned tesa products due to the last update of the candidate list by ECHA (European Chemicals Agency) on 17.01.2022.

In accordance with Article 33 of the REACH regulation (EC) No. 1907/2006, any supplier of an article containing a substance included in the candidate list in a concentration above 0.1% w/w have to provide sufficient information to allow safe use of the article to their customers.

The supplied below mentioned tesa products contain more than 0.1% w/w 6,6'-di-tert-butyl-2,2'-methylenedi-p-cresol (EC Number: 204-327-1, CAS Number: 119-47-1).

The respective substance is used as an antiaging substance in the adhesive of the tesa product. No exposure is expected for the intended use to our current knowledge. Therefore, the intended use of the product is safe and does not require further safety instructions.

Additionally, there is no change in labelling of our products.

We provide this product information based on our current knowledge and experience. We cannot give any warranty nor assume any responsibility for factors outside of our control or knowledge.

Furthermore, in regard with our responsible care principles we are working on products containing no substances included in the candidate list.
