

tesa® Ultra Power Clear Repairing Tape - 56496, 56497

tesa® Ultra Power Clear Repairing Tape is a special-purpose tape that, due to its transparency, allows for unobtrusive repairs. Its strong adhesive makes it stick to various surfaces, including slightly rough ones. The tape is hand-tearable and thick, making it ideal for quick and lasting repairs. The tape is a great choice under extreme weather conditions due to its UV- and temperature resistance.

Main Application

- Ideal for patching large holes, cracks, gaps and tears
- Ideal for invisible repairs on transparent plastic material
- To fix cracks in glass
- Sticks also on slightly rough and textile surfaces

Technical Data & Properties

Dimensions	10 m x 48 mm; 20 m x 48 mm
Backing	Polyethylene
Total thickness	170 µm
Adhesive	Synthetic rubber
Adhesion to steel	8.5 N/cm
Adhesion to glass	10.0 N/cm
Adhesion to PE	5.0 N/cm
Adhesion to PVC	5.5 N/cm
Elongation at break	100%
Tensile strength	35 N/cm
Temperature resistance (short term)	Min. -10 °C; Max. +90 °C
UV-Resistance	6 months
