

## tesa® Ultra Power Under Water Repair Tape - 56491

tesa® Ultra Power Underwater Repair Tape – 56491 is a special-purpose tape that is particularly suited for applications on wet surfaces or under water. Due to its thickness and the excellent rubberized adhesive it seals damages and leaks and convinces with a strong hold. The tape conforms to any shape or object and is thus easy to use. It is ideal for outdoor use, since it is temperature resistant, UV resistant and endures extreme weather conditions.

### Main Application

- Ideal for patching holes, cracks, gaps and tears
- Ideal for fixing leaking pools or gutters and seal drainage
